An Appreciation.

Dr. Byron W. King has come and gone and with him he has taken great numbers of hearts—hearts of many of the best men and women in all Louisville—hearts that have been touched and swayed, sweetened and strengthened by the magic power of this masterful man. His life has been an inspiration, and his memory will be a benediction.

We loaned him our minds and he taught us of their power and use; we loaned him our hearts and upon their strings he played and we were strengthened—strengthened for the battle of this thing we call life, and life to many of us has taken on a different and a better meaning. Where there were shadows before, there is light now—light that comes from the soul's touch with a great and noble soul which has been touched by the Light of Life.

He taught us something of the beauty and of the power of speech, but he taught us more of the beauty and the power of soul—that it is God-given and should be God-directed—and that we as His children have a boundless storehouse from which to draw everything needed to make our lives bright and noble, happy and useful.

This indeed has been a great week at the Temple. The results will be far-reaching. The good accomplished can never be fully known here—eternity alone can tell. Our people are a grateful people to Dr. King for the faithful and masterful service he has rendered while in our midst. Our prayers will follow him wherever he goes, and our hearts and our hands will be open for his return.

A VAST MINERAL FIND FOR CRITTENDEN COUNTY.

Valuable Zinc And Lead Ore Uncovered At Depth Of 100 Feet That Means Millions Of Dollars.

Learning of the great find in the LaRue mines at the F. G. Cox place, seven miles distant from Marion, we at once sought some of owners and especially those in authority, who revealed to us that the half had not been told.

Mr. J. M. Persons, who is authority on mine matters, in an interview said that the newly uncovered mineral represented untold wealth; that it was an inexhaustible fissure vein, seven feet thick, forty per cent of which is zinc, with a paying quantity of lead, a large sample of which can be seen at the Record-Press office.

This rich vein was discovered some fifty years ago in the same hole, but supposed to be worthless. The company composed of J. M. Persons, G. C. Gray, Murray Saunders and other parties of New York concluding to pump the hole dry so as to fully investigate it, were wonderfully surprised to find it so rich in zinc and lead. This is supposed to be the mother vein of all this mineral belt and in value is estimated into the millions. Mr. Persons and the other owners of the property will at once commence forming a large stock company for mining and putting this ore on the market. In comparison of value this ore is worth \$20. per ton and up, against \$5. per ton for other Crittenden county ores. This rich bed was found at a depth of 100 feet from the surface and will

be easy to mine. Everyone is congratulating the owners on their good fortune which, of course, will prove of great value to all Crittenden county. The ore is rich and plentiful and can be seen by all visitors, it is there in sufficient quantity to mean untold wealth to the owners.

CONGRESSMAN JAMES IN LOUISVILLE FOR A DAY.

Representative-Elect Pogue Passes Through On Way To Frankfort.

Congressman Ollie M. James, of Marion, arrived in Louisville last night and will remain over today. He is at the Old Inn, but was mixing with friends at The Senbach last night. He said that the Democrats in his part of the State had not yet finished rejoicing over the victory in Louisville. Congressman James will not leave for Washington until December 3, so as to be ready for the assembling of Congress on the following Monday.

M. F. Pogue, Representative-elect from Crittenden and Livingston counties, was with Mr. James. Mr. Pogue is on his way to Frankfort so as to take a little survey of the situation before going there to attend the session of the Legislature. Mr. Pogue was formerly connected with the Legislature in the capacity of clerk, but this year he goes back to help make the laws. He is a neighbor of George Willson, of Union county, and he is for him for Speaker of the House.

Mrs. W. H. Compton, of Nebo, is visiting her father, C. W. Davis, and family this week.
